(57) **ABSTRACT**

(22) Filed: **Dec. 20, 2023**

The present disclosure provides a fluid device including an assembly portion and a block portion. The assembly portion is for assembling with an object. The block portion is disposed at the assembly portion, and is for blocking or guiding a fluid. Thus, the fluid device of the present disclosure can provide a secure configuration and an effect of efficiently guiding or disturbing a fluid for heat dissipation.
