**ABSTRACT**

Provided is an opto-electronic device including a first elec-  
trode, a second electrode facing the first electrode, a pho-  
toactive layer arranged between the first electrode and the  
second electrode, and an organic compound represented by  
Formula 1. In Formula 1, Ar<sub>1</sub> is a group represented by  
Formula 2, and details of Formulae 1 and 2 are as described  
herein.
